A surprise stag party was given last evening to William McDonald at his home on Perry street, when ten young men walked in and aroused him from a comfortable chair and thrilling novel.

Immediately jollity began and prevailed throughout the evening. Card games, house basketball and various other amusements passed the time amazingly swift.

Refreshments were served, the principal feature of which was a large birthday cake adorned with fifteen candles of various colors, after which he received various gifts.

At a regular meeting of Granite City lodge, No. 37, I. O. O. L. M. U., last night, the following officers were installed by Deputy Christmas Smith, assisted by Conductor Murray of Royal Victor lodge of Granterville: P. N. G., Josephine M. Rizzi; N. G., Annabella Milne; V. G., Katherine Davidson; treasurer, Eleanor Paulkner; P. S., Nellie Bianchi; E. S. Maria Mitchell; chaplain, Mary Gray; conductress, Nellie Scampini; warden, Margaret Allen; L. G., Elvira Giudici; pianist, Bertha Dale; R. S. to N. G., Helen Stephen; L. S. to N. G., Ida Morrison; R. S. to V. G., May Duncan; L. S. to V. G., Elizabeth Muir.

After the meeting refreshments of sandwiches, cake and coffee were served by members of the amusement committee. The members have expectations of a more successful year than ever before, although each year has been a grand success. Their membership is fast increasing and their financial conditions have never been surpassed.

The second performance of the Squag Holler Folies given in the opera house Friday evening for the benefit of the City hospital drew a large crowd and without exception was one of the most enjoyable local talent presentations ever seen in this city. The company outdid itself, singing, dancing and acting as if regular followers of the footlights. Miss Margaret Brown, who was detained by illness the previous night, gave a very good demonstration of the "Tinkle Toe" dance with Mrs. Philbrook. The program was run off in clock-like manner and immediately afterward the stage was cleared and a large crowd enjoyed dancing with music by the Landi-Forsell orchestra. As all the ticket money has not yet been turned in it is impossible to estimate the net receipts, but they will run up into the hundreds. The committee which undertook and carried through the project so successfully was composed of Thomas J. Mercer, William Duthie, A. J. Gauthrie and Duncan McMillan, jr.

#### GERMANS BEING SLAUGHTERED.

Bolsheviki in the Baltic Provinces Are Wielding the Sword.

Berlin, Thursday, Jan. 9 (by the Associated Press).—The bolsheviki are slaughtering the Germans in the sections of the Baltic provinces which have recently come under bolsheviki control, according to Herr Winning, the former German minister to the Baltic provinces. He reports extremely bad conditions at Riga and other parts of Livonia and Courland now in bolshevik hands, with the Baltic Germans the object of attack recalling the historic St. Bartholemew's night, on the part of the bolsheviki and their local Russian supporters.

Three men from the German legation who remained behind in Riga, relying upon their diplomatic immunity, were arrested, the former minister reports, and their public funds, amounting to 500,000 marks, were confiscated.

#### RUNNING HALF WARTIME FORCE.

United States Armory at Springfield, Mass., Weeding Out Inefficient.

Springfield, Mass., Jan. 11.—With the dropping to-day of 500 employees, the working force at the United States armory here has been reduced to between 2,000 and 2,700, or little more than one-half the number during the peak of war activities. Lieutenant Colonel L. D. Hubbell, commandant, said to-day that efficiency rather than seniority is the test being applied in retaining workers, whether men or women, and there is no on the mere basis of sex. He pointed present intention to weed out the latter out that the government is pursuing a policy of reducing the force gradually, having due regard to the effect on the general labor market.

### MONTPELIER

Supreme Court Will Resume Work Next Tuesday.

Supreme court took a recess Friday afternoon until 9:30 o'clock next Tuesday morning, when further arguments of cases will occur. The case argued Friday was Henry Clement vs. the Rutland Country club. This is a breach of contract, all according to the arguments, over certain water rights which the plaintiff claims have not been respected by the defendant.

Dr. C. H. Dalton of Burlington was in the city yesterday afternoon to confer relative to health matters. Major Clayton of Montpelier, a member of the House, is a member of the state board of health.

An engine was brought from Montpelier Junction at an early hour Friday morning to warm the private cars which brought railroad officials here for the affairs of Friday, but it did not come soon enough, so that those who were occupying the car were well cooled. The official car of the administration and the parlor car of the Central Vermont railway were both here, so that those who attended the hall last evening were able to go to St. Albans at an early hour this morning.

Miss Elizabeth Clement entertained 10 guests at dinner Friday noon at the Colonial. These were largely those who were being entertained during the week at the Clement home.

Edward Benway returned this morning from Camp Devens, where he has been mustered out of military service. He went to Washington barracks, Washington state, last summer in the forestry regiment and the earlier part of this week came to Camp Devens for his discharge.

As far as is recalled, there is only one vacancy that carries over from the Graham regime to that of P. W. Clement and that is the vacancy caused by the death of Elihu May of St. Johnsbury, on the board of charities and probations.

In probate court the will of D. L. Buck of Roxbury has been presented for probate.

#### The Berlin Riots.

Shock tactics have not enabled the radicals at Berlin to carry all before them as happened at Petrograd and in the street fighting thus far the government troops seem to have had the best of it. Mention is made of the killing of several hundred persons, but this suggests sharp skirmishes rather than civil war. Probably further outbreaks of the same kind are to be looked for, but if the whole maintain order until the constituent assembly is elected and comes to power there should be a fair chance of setting up an orderly government.

From this point of view it may be fortunate that the great mass of the German people have been drilled into the habit of obedience. Under bad rule their docility may involve a country in crime and disasters as it did Germany, but it probably does give a certain steadiness in critical times; the average German is apt to wait for orders, and a German crowd is considerably more phlegmatic than a Russian crowd. For a city in the throes of revolution Berlin has been by comparison rather orderly, and unless the party of violence gets many new recruits there will be hope for the government even if the riots and street fighting continue.—Springfield Republican.
